MANISH UKIRADE

Senior AI & Full-Stack Engineer | Generative AI, RAG, ML Platforms & Cloud

Thane, India | +91 86919 83106 | ukirademanish9797@gmail.com | manishukirade.com | LinkedIn | GitHub

PROFESSIONAL PROFILE

Senior AI and full-stack engineer with 7+ years of experience shipping production Generative AI, RAG, machine-learning, enterprise SaaS, and cloud platforms. Leads systems from architecture and implementation through DevOps, security, compliance, and client delivery. Deep Azure experience with hands-on delivery across GCP and AWS.

7+ YEARS	10+ CLIENTS	20 CODEBASES	492 COMMITS
Production engineering	Enterprise deployments	Active in May-Aug 2026	Substantive delivery

TECHNICAL SKILLS

Generative AI: RAG, LangChain, ChromaDB, embeddings, semantic search, prompt engineering, OpenAI API, Groq, Hugging Face, multi-agent and tool-calling workflows

ML & Data: TensorFlow, CatBoost, NLP, text classification, sentiment analysis, feature engineering, MLflow, model evaluation, pandas, MySQL, PostgreSQL, Redis

Backend: Python, FastAPI, Node.js, TypeScript, Fastify, Hapi.js, REST APIs, WebSockets, microservices, JWT, system design

Frontend: React.js, Vue.js, JavaScript, TypeScript, responsive interfaces, data visualization, accessible UX

Cloud & DevOps: Azure, AWS, GCP, Docker, Kubernetes, Docker Swarm, CI/CD, Jenkins, GitHub Actions, Linux, Nginx

Enterprise: Azure AD, ADFS, SSO, SAML, OAuth 2.0, Microsoft Teams, HRMS integrations, SOC 2 Type II, VAPT, VPAT

PROFESSIONAL EXPERIENCE

Senior AI & Full-Stack Engineer / Tech Lead

Apr 2023 - Present

W.E. Matter - TheOther 2 Thirds Consulting LLP

Mumbai, India

- Delivered 492 substantive commits across 20 active codebases during the May-Aug 2026 evidence window, spanning frontend, backend, traditional ML, and Generative AI systems.
- Expanded KYARA with intent recognition, scoped conversational query routing, chart and heatmap insights, retry-aware chat UX, and multi-turn FAQ orchestration with test coverage.
- Built qualitative-insights pipelines for comment summarization and comparative sentiment analysis, including concurrency controls, LLM-call management, dashboard visualizations, and exports.
- Shipped enterprise platform improvements across survey scorecards and reporting, HRMS attendance connectors, Microsoft Teams Adaptive Cards and bot security, and WhatsApp queue reliability.
- Built KYARA's production RAG policy Q&A and conversational employee-intelligence platform using Python, FastAPI, LangChain, ChromaDB, and LLM prompting for 10+ enterprise clients.
- Architected a multi-tenant employee-engagement SaaS platform for clients across India and the Middle East, contributing to 2x year-over-year revenue growth over 2.5 years.
- Led SOC 2 Type II, CyberCube, and VPAT programs end to end; owned policy drafting, VAPT, vendor reviews, evidence, and audit coordination with one low-severity Nginx finding.
- Owned infrastructure for 8+ production applications and completed the AWS-to-Azure migration in 15 days with zero downtime and a reported 30% cost-efficiency improvement; delivered SSO/SAML integrations for 5+ clients.

EARLIER EXPERIENCE

Software Engineer - Full Stack & DevOps
Feb 2022 - Mar 2023

BizPilot.in Delhi, Remote

- Led the ground-up V2 rebuild using React, Node.js, PostgreSQL, and AWS, taking the platform from architecture through production deployment.
- Built a financial-automation engine processing 1,000+ monthly transactions and reducing compliance-processing time by a reported 200%.
- Implemented Jenkins and GitHub Actions CI/CD and independently managed production infrastructure and releases.

Software Engineer - Cloud Migration
Sep 2021 - Feb 2022

Raykor Technologies Mumbai, India

- Migrated Intellinotion systems serving 50,000+ users from Azure to GCP with zero downtime across a three-month delivery window.
- Built secure Hapi.js REST APIs with Firebase authentication, automated deployments, and improved infrastructure stability by a reported 40%.

Software Engineer - Platform & ML
Aug 2019 - Aug 2021

Nexsales Corporation Mumbai, India

- Led development of a Vue.js microservices dialer integrated with SIP systems and used by 200+ sales agents each day.
- Built Python and TensorFlow text-classification pipelines reaching 87% accuracy for lead qualification.
- Owned GCP infrastructure, server provisioning, database architecture, CI/CD, and pub/sub systems; modernized Node.js 0.10 services to Node.js 14, removing three critical vulnerabilities and improving response time by 60%.

SELECTED SYSTEMS & RECENT WORK

- KYARA Intelligence Platform: RAG policy search, conversational analytics, intent routing, multi-turn FAQ orchestration, scorecards, and qualitative insights.
- Production ML: Employee-attrition modeling with CatBoost, 122 engineered features, 83.48% accuracy, and 82% recall for at-risk employees.
- Survey Intelligence: Theme score matrices, comparison dashboards, action-plan APIs, response-integrity controls, user-specific filter ordering, and production export tooling.
- Automation: Voice generation and translation with SRT captions and video muxing, plus a supervised SEO agent with backup, restore, and search-optimization workflows.

LEADERSHIP & PRODUCT OWNERSHIP

- Designed and delivered a Performance Management System for NBFC clients and owned the product roadmap as Technical Product Manager across the engineering team.
- Turns enterprise requirements into end-to-end releases spanning product architecture, AI, frontend, backend, cloud operations, security, compliance, and client integrations.

CERTIFICATIONS & COMPLIANCE

SOC 2 Type II - Technical lead for controls, evidence, VAPT, policies, and audit coordination. **CyberCube** - Enterprise cyber-risk certification. **VPAT** - Accessibility compliance supporting enterprise procurement.

EDUCATION

B.E. in Information Technology
2015 - 2019

Bharati Vidyapeeth College of Engineering Navi Mumbai, India
